

ANNET ANIL

COMPUTER ENGINEERING UNDERGRADUATE | SOFTWARE • FRONTEND • CYBERSECURITY

anilannet@gmail.com • linkedin.com/in/annetanilcse07 • github.com/annetanil7 • +971-50-5367089

PROFESSIONAL SUMMARY

Computer Engineering undergraduate with hands-on experience designing and building full-stack applications and AI-powered solutions. Skilled in frontend and backend development, APIs, UI/UX, cloud technologies, and cybersecurity, with a strong ability to take ideas from concept to functional implementation. Passionate about solving real-world problems through clean, scalable, and user-focused software. Selected by Karunya Institute of Technology and Sciences for the Student Visitor Exchange Program at the American University of Ras Al Khaimah, UAE.

TECHNICAL SKILLS

Programming: Python, Java, C, C++, HTML

Frontend: React, Vite, Tailwind CSS, Next.js, UI/UX Design

Backend & Data: Node.js, Express.js, REST APIs, MongoDB

Cloud & Security: Microsoft Azure, Cybersecurity Fundamentals, CCNA

AI / XR: Machine Learning, NLP, Prompt Engineering, 3D Modelling, AR/VR

Tools: Git, GitHub, DaVinci Resolve, CapCut, Streamlit

PROFESSIONAL EXPERIENCE

Zyrops — Cybersecurity Intern

Jan 2026 — Jul 2026

Kerala, India

- Contributed to cybersecurity-focused work and gained practical exposure to security assessment and analysis workflows.
- Applied cybersecurity fundamentals from industry-aligned training to internship tasks and technical problem solving.

ReflexLabs — UI/UX Engineer & Frontend Developer

Sep 2025 — May 2026

Coimbatore, India

- Developed responsive frontend interfaces using React, Vite and Tailwind CSS, translating UI designs into reusable components.
- Contributed to frontend development using modern web technologies and collaborated on usability-focused improvements.

Computer Innovation & Research Association (CIRA) — Content Creator Head

Jul 2025 — Aug 2026

Coimbatore, India

- Led a **10-member creative team** responsible for technical-event content across Instagram, LinkedIn and YouTube.
- Planned and produced digital content for technical initiatives and events while coordinating creative deliverables.

National Small Industries Corporation (NSIC) — Amazon Web Services (AWS)

Jun 2025 — Jul 2025

Telangana, India

- Participated in an AWS-focused technical projects through the National Small Industries Corporation.

SELECTED PROJECTS

EchoCity — React/Vite • Node.js • Express • MongoDB

- Developed a full-stack web application with a Vite-based frontend and Express backend, integrating MongoDB for persistent data.
- Implemented frontend-backend communication and API-driven application workflows.

Fake News Detector — Python • Machine Learning • Streamlit • NLP

- Built a machine-learning application for classifying news content and presented the solution through a Streamlit interface.
- Applied text-processing and machine-learning techniques to transform news text into model-ready features.

AI-Enabled AR Indoor Navigation System — AR • Voice Assistant • Emergency Guidance

- Developed an indoor-navigation concept for college or mall environments with voice-based destination guidance and emergency-exit assistance.
- Focused on intuitive navigation, contextual guidance, and an immersive user experience.

EDUCATION

American University of Ras Al Khaimah (AURAK) — Exchange Program, Computer Engineering

Aug 2026 — Jan 2027

Ras Al Khaimah, UAE

Karunya Institute of Technology and Sciences — B.Tech. Computer Engineering

Aug 2023 — May 2027

Coimbatore, India

GEMS Millennium School — High School

Mar 2017 — May 2021

Sharjah, UAE

CERTIFICATIONS & ACHIEVEMENTS

- Microsoft Certified: Azure Data Fundamentals
- IBM — Enterprise Security in Practice
- Cisco — Full Stack Development with MERN
- CCNA: Switching, Routing, and Wireless Essentials
- Junior Cybersecurity Analyst Career Path
- Java Programming Fundamentals — IBM
- Achievement:** 2nd Place — Techscape 2024, IoT-based Competition
